MORGAN RUSHWORTH DBR 1050.46 MANUAL BENDING ROLLERS

The Morgan Rushworth DBR1050.46 Manual Bending Rolls have a maximum capacity of 0.8mm. The asymmetric design provides pre-bending capability on the machine, using the quick action lever provided. The top slip roll allows removal of cylindrical components.

FEATURES

- Top slip roll for removal of complete cylinders
- Cast iron end frames
- Manual pinching of bottom roll
- Manual rapid adjustment of the pre-bending roll
- Cone bending device
- Wire grooves

OPTIONS

- Induction hardened rolls
