MORGAN RUSHWORTH ASBR 2050.200 POWERED BENDING ROLLERS

The Morgan Rushworth ASBR Powered Bending Rolls build on the heavy duty design of the smaller SBR models by adding standard features such as powered pre-bending roll adjustment and option to extend the roll shafts to accept profile bending rolls. The asymmetric design provides pre-bending capability on the machine and the top slip roll allows quick removal of cylindrical components. An optional digital read out can be fitted to the pre-bending roll for repeatability.
