

MORGAN RUSHWORTH RFF 5.1.0 ROLL FORMER & FLANGER

The Morgan Rushworth RFF5.1.0 heavy duty rollforming and flanging machine is designed to join straight or curved sheet metal material. A full range of tooling is available to achieve the various connection methods required.

FEATURES

- Type A Pittsburgh rolls fitted as standard
- Fast straight forming in one pass
- Available in 1.0mm and 1.6mm capacities
- Auxiliary drive shafts fitted to accept optional rolls
- As RF but with the useful feature of a flanging unit, forming roll type J, fitted to the top of the machine in order to perform radius joins
